

SOL

MARINA PALACE

NESSEBAR

Location:

Sea front hotel just 50 m from a virgin small free access beach & 300 m away from the large public beach. Within 500 m walking distance from the center of Nessebar and 650 m from the old historical town of Nessebar.

The hotel unites the romantic atmosphere and the coziness of the Old Town with the attractive night life of Sunny beach. The 4-star Hotel Sol Marina Palace is located in the immediate vicinity of the Old Nessebar. Its unique location and quality of service is a very good choice for both relaxing and active holidays, combined with entertainment and learning.

About the destination:

Nessebar is an ancient city and one of the major seaside resorts on the Bulgarian Black Sea Coast, located in Burgas Province. It is the administrative centre of the homonymous Nessebar Municipality. Often referred to as the "*Pearl of the Black Sea*", Nessebar is a rich city-museum defined by more than three millennia of ever-changing history. The small city exists in two parts separated by a narrow man-made isthmus with the ancient part of the settlement on the peninsula (previously an island), and the more modern section (i.e. hotels, later development) on the mainland side. The older part bears evidence of occupation by a variety of different civilisations over the course of its existence.

It is one of the most prominent tourist destinations and seaports on the Black Sea, in what has become a popular area with several large resorts—the largest, Sunny Beach, is situated immediately to the north of Nessebar.

Nessebar has on several occasions found itself on the frontier of a threatened empire, and as such it is a town with a rich history. Due to the city's abundance of historic buildings, UNESCO came to include Nessebar in its list of World Heritage Sites in 1983.
