And more:

The Southern Bulgarian Black Sea coast boasts long summer season with mild and favorable climate. Famous for its golden beaches and numerous attractions, Bulgaria has attracted visitors for years. Its lively nightlife is legendary, with bars, restaurants and discos dotted around the coast.

The guests of Sol Nessebar Resort can enjoy shopping – clothing and jewelry and especially craft items in Nessebar. With its numerous ancient churches and traditional houses, Nessebar is a place for sightseeing, as well.

It is included in the UNESCO World Heritage List and not unjustly so!

Adventure lovers can hire a boat or a yacht from Nessebar to enjoy a panoramic tour around the town. You can even rent a car and explore the nature reserve in the valley of Veleka River and the unspoilt villages around. In the evenings, you can "taste" the nightlife in Nessebar or Sunny Beach...and these are just a few of the activities you can indulge in.

You are welcome to stay!
